

UP TO £1,000 AVAILABLE TO BUSINESSES FOR SMARTER WORKING

Aylesbury Vale businesses with five to 250 employees can apply for a new grant to help with the cost of business travel. The match funded grants of up to £1,000 are available from the European Regional Development Fund (ERDF), through Business Link.

The aim is to encourage businesses to take up more efficient travel plans and choices, reducing their travel expenditure and carbon emissions. So, for example, the grants could be used for consultancy on remote working infrastructures, for developing flexible working policies or on video conferencing equipment and fuel conversion.

Bucks County Council is working as a partner on the programme and will be carrying out free staff travel surveys for all applicants.

To find out more, call Douglas Connan on 01844 21049 or visit www.sustainableroutes.co.uk.

Please put 'Sustainable Routes' in the subject box and give your name, your business name, postcode and telephone number(s) in the text box.
